Credit Profile (Within Fixed Income)

Risk

The Fund will be subject to Unit Prices changes driven by changes to the value of underlying investments.

Equity investments will be subject to changes in share prices which will be subject to macroeconomic risks, political risks, market risks, liquidity risks and company specific risks.

Fixed income investments in the Fund are subject to macroeconomic risks, political risks, market risks and liquidity risks, including interest rate risks, and default risk. Changes in the market interest rates may influence the income and the market value of the fund, since the reinvestment of matured proceeds and realized income may be subject to those new rates at the time of reinvestment.
